

# Move your team forward.

True teamwork starts with a clear view of the game plan. To help Nike drive innovation and expand human potential, there's Smartsheet.

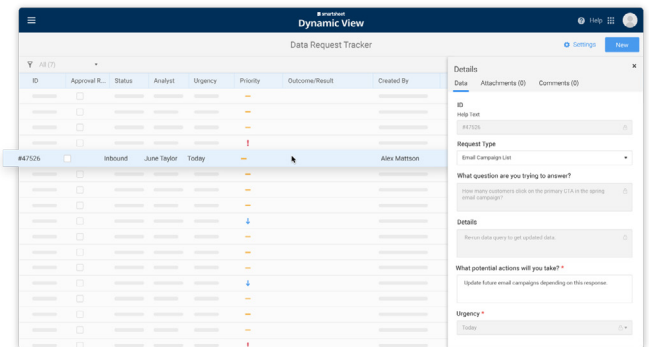

## Innovate and achieve moonshot moments.

Your account has access to a number of premium apps and Connectors to help you run interference, including:

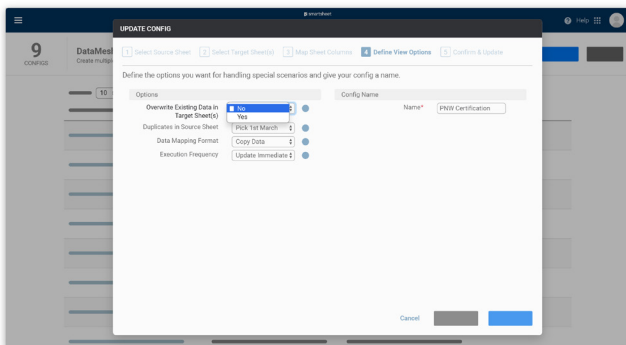

### Data Uploader

Allows any enterprise system that can export to CSV, Excel, or Google Sheets to be automatically uploaded into Smartsheet for visibility and collaboration. [Learn more](#)

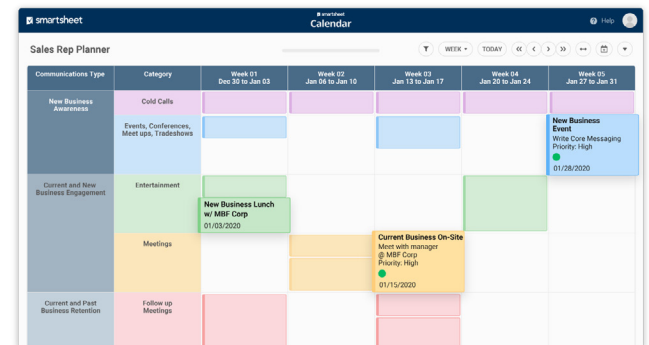

### Dynamic View

Enables business users to maintain the confidentiality required for their processes by preventing users or vendors from accessing the full sheet. [Learn more](#)

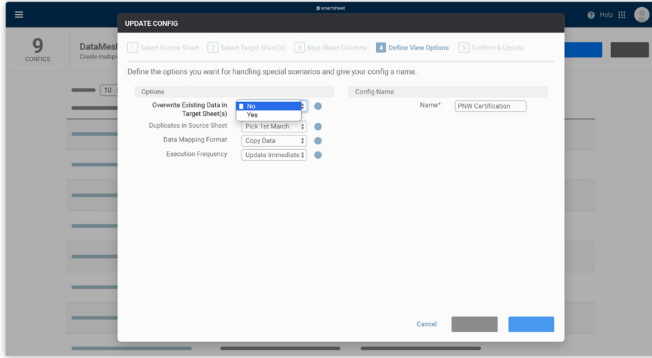

### DataMesh

Integrates data from multiple sheets and allows data mapping across sheets. [Learn more](#)

### Calendar App

Takes calendaring to the next level with advanced categorization and detailed information. [Learn more](#)

## Pivot App

Manages data with ease so you can create pivot tables for showcasing via charts and dashboards. [Learn more](#)

## Salesforce Connector

Automatically syncs data across platforms and enables teams to easily update and share information between platforms. [Learn more](#)

## Jira Connector

Unlocks visibility into Jira data for all stakeholders and provides visibility by automatically synchronizing issues — whether edited in Smartsheet or Jira — ensuring every record is up to date. [Learn more](#)

## Hit the ground running.

Level the playing field by learning the basics and getting the support you need.

### Get onboarded.

Familiarize yourself with Smartsheet through our [Learning Center](#) and use the [Solution Center](#) to get started quickly.
