User Story	Acceptance Criteria
 <p>As a customer, I want to transfer money between my accounts so that I can manage my finances easily.</p>	<ul style="list-style-type: none">• When the customer selects the <i>Transfer</i> option and chooses the source and destination accounts, the system should display the available balance in the source account.• The transfer amount must be less than or equal to the available balance.• When the customer confirms the transfer, the system should immediately deduct the amount from the source account and add it to the destination account. It should then display a confirmation message on the screen.• The transfer must be logged with a timestamp and a unique transaction ID.
 <p>As a team member, I want to log my work hours on tasks so that I can track and bill my time accurately.</p>	<ul style="list-style-type: none">• The system should allow the team member to log hours worked on each task, with an option to specify the date and time period.• The logged hours must be visible to both the team member and the project manager, with the ability to edit or delete entries as needed.• The system should automatically calculate total hours worked per task and display this information in the task details.• The user should be able to export logged hours to a timesheet for billing purposes.
 <p>As a product owner, I want to prioritize the product backlog so that the most valuable features are developed first.</p>	<ul style="list-style-type: none">• The system should allow the product owner to assign a priority level to each user story in the product backlog.• When the priority is updated, the system should automatically reorder the backlog to reflect the new priority.• The product owner should be able to filter stories by priority, status, and assigned team members.• The system should also allow the product owner to add notes or comments to each story, explaining the reasoning behind the priority level.
